CITYSTAR
PROPERTIES

A private, fully secured estate, close to the Palmeraie of Marrakech.

ROUTE DE FÈS KM 11 · MARRAKECH

SECURE

THE RESIDENCE

A gated estate, *not a subdivision.*

CITYSTAR gathers fourteen contemporary villas in a private, gated and fully secured residence at km 11 on the Route de Fès, close to the Palmeraie.

Fourteen villas only, each on its own plot and with its own private pool. The residence is enclosed and secured day and night.

ABOUT

Marrakech, *the ochre city.*

Marrakech, a former imperial city in western Morocco, is a major economic centre, home to mosques, palaces and gardens. Its medina, a densely populated, fortified medieval town dating back to the Berber empire, unfolds in labyrinthine alleys where thriving souks sell traditional textiles, pottery and jewellery.

A symbol of the city, visible for miles around: the Moorish minaret of the 12th-century Koutoubia mosque.

Imperial

THE PROJECT

Fourteen villas, *three architectures.*

A residential complex of fourteen villas, designed to offer a safe, comfortable environment accessible to all, with particular attention to people with reduced mobility. Three villa types, A, B and C, meet the requirements of every resident.

TYPE OF PROJECT
Housing group under article 45 of law 25-90

PROGRAMME
14 villas (G+1): 6 type A, 4 type B, 4 type C

LOCATION
Route de Fès km 11, Marrakech
Property known as Melk Moulay Abdellah

LAND TITLE
T 51619/43

LAND AREA
3 ha 68 a 90 ca, i.e. 36,890 m²

PLOT OF EACH VILLA
Detached villa, 2,000 m²

GUARDHOUSES
14 guardhouses of 13 m², 182 m² in total

PROJECT OWNER
Central Property Investment SARL AU

SITE PLAN

The *master plan.*

Fourteen detached villas, each on its own 2,000 m² plot, in three types.

A **Villa A**
6 villas, with lift

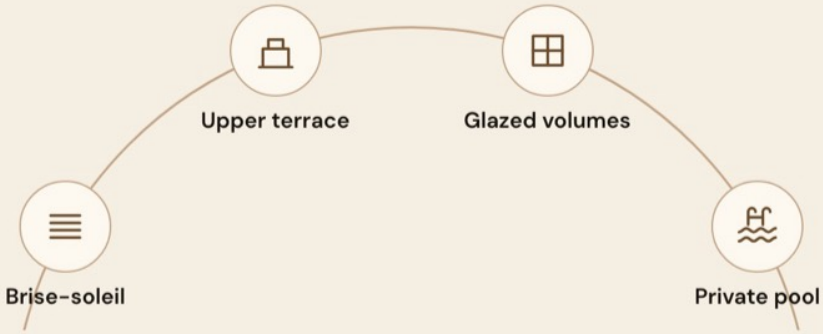

B **Villa B**
4 villas

C **Villa C**
4 villas

Developer's master plan, not contractual

ARCHITECTURE

Demanding architecture.

Brise-soleil
Horizontal fins filtering the light above the terrace.

Upper terrace
The upper floor rooms open onto wide terraces.

Glazed volumes
Large volumes opening onto the outdoors.

Private pool
Every villa has its own pool.

High quality materials, *to European standards.*

ACCESSIBILITY

Designed for all, *without barriers.*

Architectural design

Barrier-free access for people with reduced mobility, without giving up comfort or aesthetics. Interior spaces make wheelchair circulation easy and keep the layout flexible.

Interior equipment

Each villa will be equipped for people with special needs: access ramps, wider doors, adapted bathrooms, accessible keys and sockets.

Outdoor facilities

Easy-access walkways, green spaces for leisure, inclusive play areas, parking reserved for people with reduced mobility and access ramps at the entrances.

VILLA A

Designed for residents with reduced mobility: lift, easy-access bathrooms, spacious interiors for wheelchair circulation.

VILLAS B AND C

For demanding residents: the highest architectural standards, high-quality materials and intelligent design.

PROJECT OBJECTIVES

Five objectives, *one standard.*

01

Accessibility

Villas that meet accessibility standards, to welcome people with special needs.

02

Safety and comfort

A safe, comfortable and inclusive environment, each villa adapted to the needs of its residents.

03

Independence

Residents' independence, through adapted facilities and equipment.

04

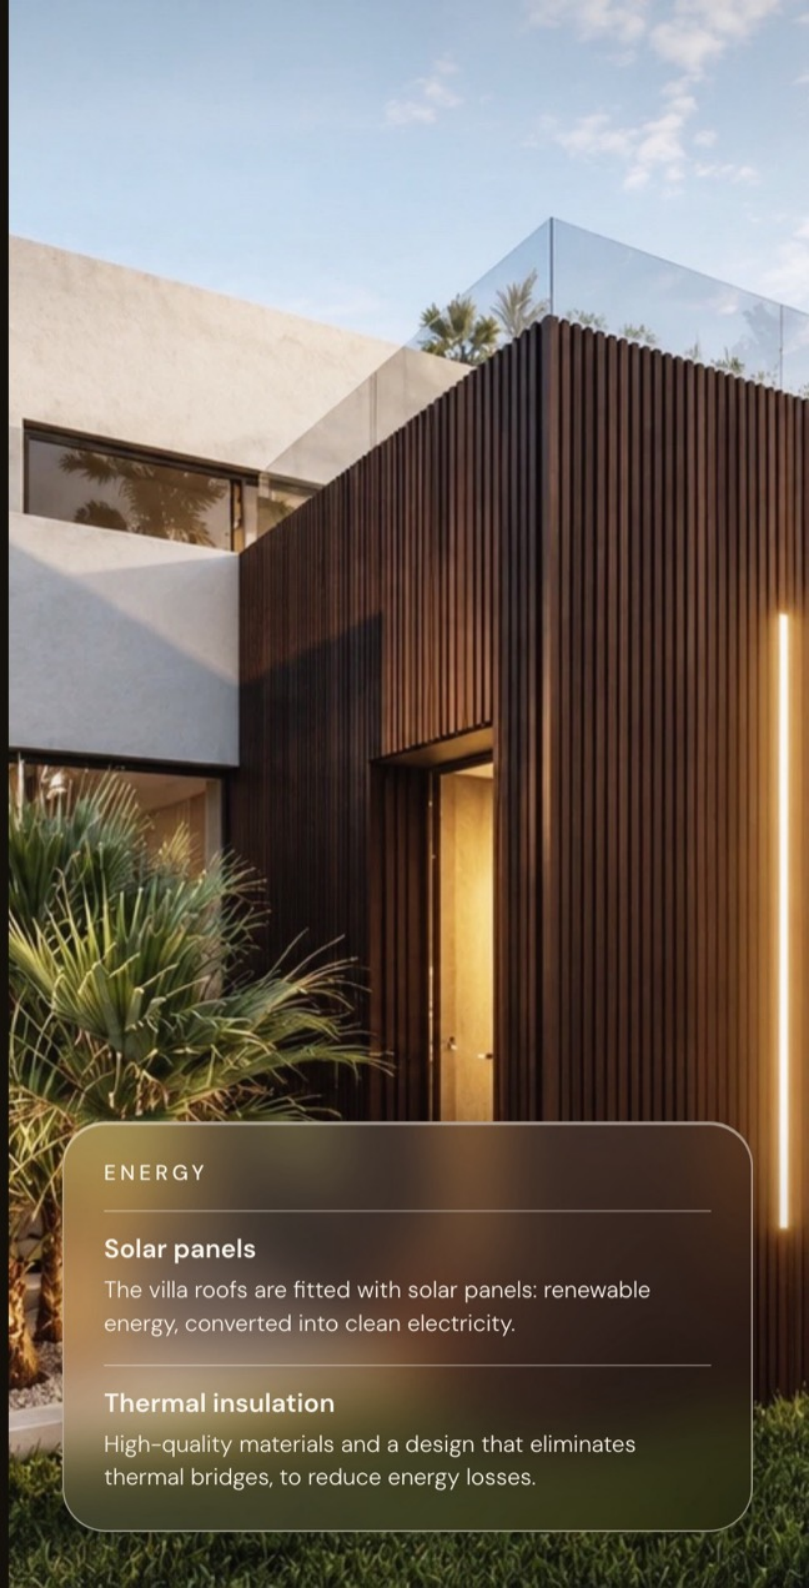

Living environment

Green spaces, leisure areas and shared facilities within the estate.

05

Quality and safety

Compliance with current regulations and building standards, for the quality and safety of the whole project.

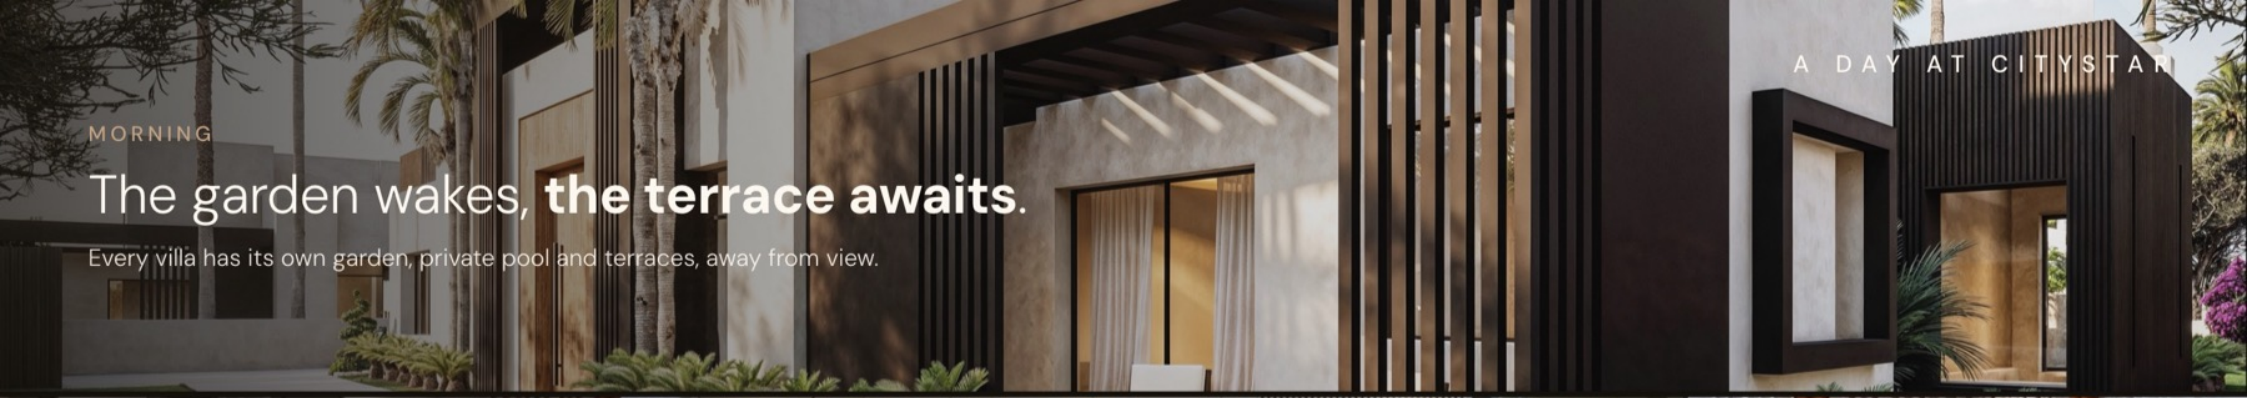

ENERGY

Solar panels

The villa roofs are fitted with solar panels: renewable energy, converted into clean electricity.

Thermal insulation

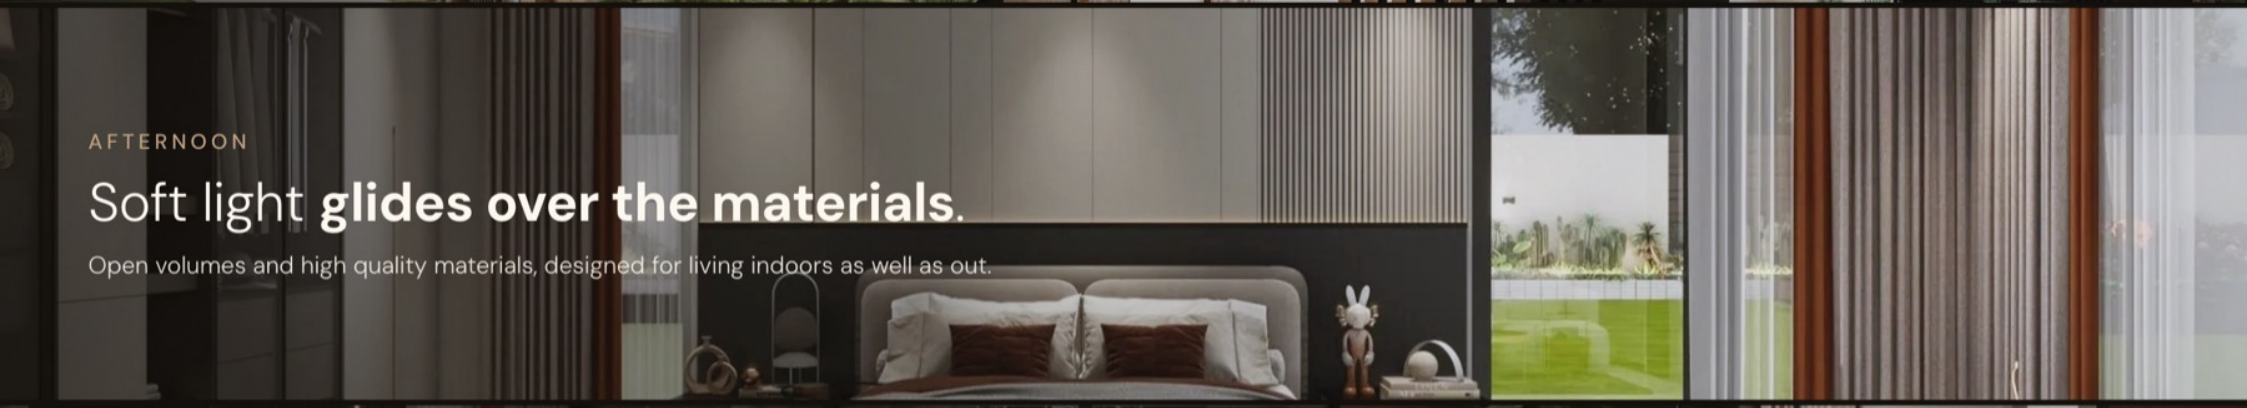

High-quality materials and a design that eliminates thermal bridges, to reduce energy losses.

MORNING

The garden wakes, **the terrace awaits**.

Every villa has its own garden, private pool and terraces, away from view.

AFTERNOON

Soft light **glides over the materials**.

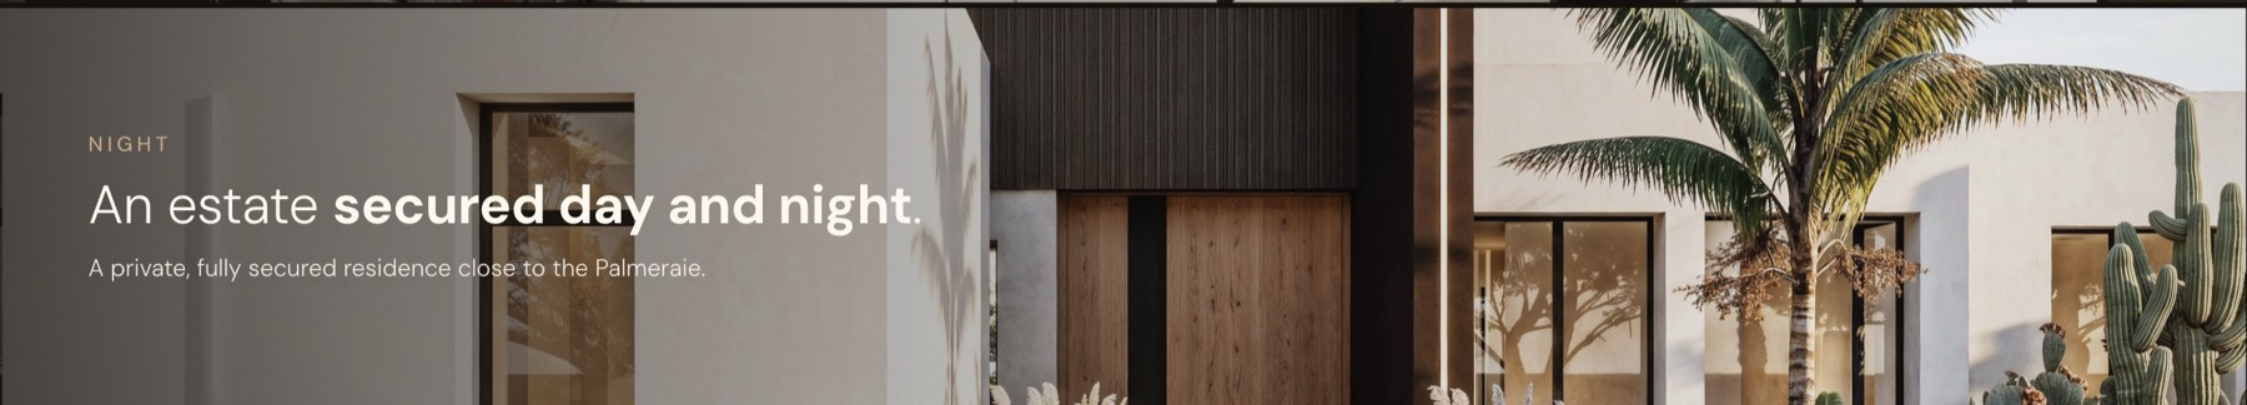

Open volumes and high quality materials, designed for living indoors as well as out.

EVENING

Entertaining, **discreetly**.

Spacious living rooms, in a villa of its own within a private estate.

NIGHT

An estate **secured day and night**.

A private, fully secured residence close to the Palmeraie.

A Villa A, *with lift*

Villa A, *with lift*

Designed for people with reduced mobility: a lift serves both floors, the bathrooms are accessible and the wide circulation leaves room for a wheelchair.

PRICE **€1,500,000**

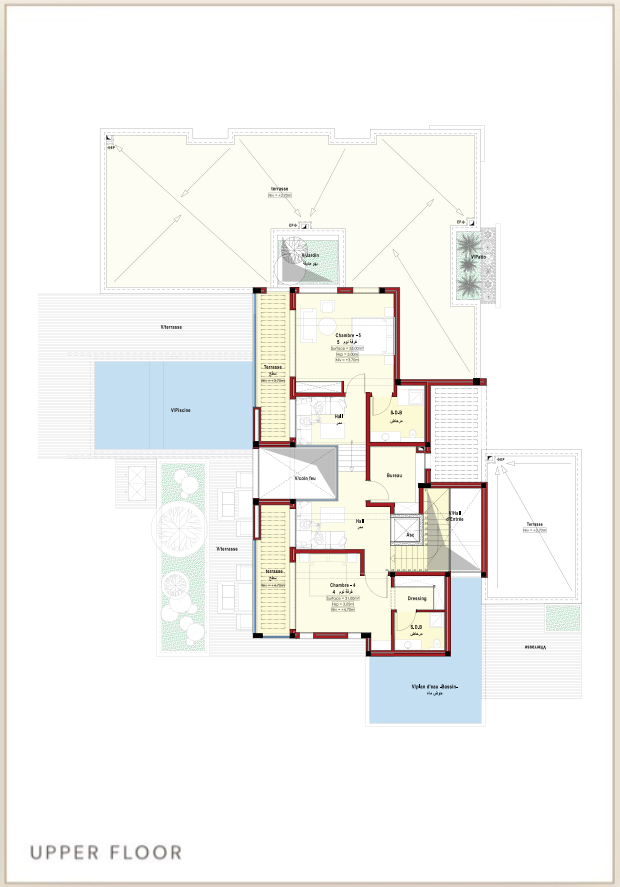

- 546 m² built
- 5 suites

BUYING

A single contact, *at every stage.*

01 **The first conversation**
By video or phone, an expert real estate consultant presents the estate, the villas, the floor plans and the 360° tour.

02 **Choosing your villa**
An on-site or remote viewing. You receive the payment schedule of the villa you choose.

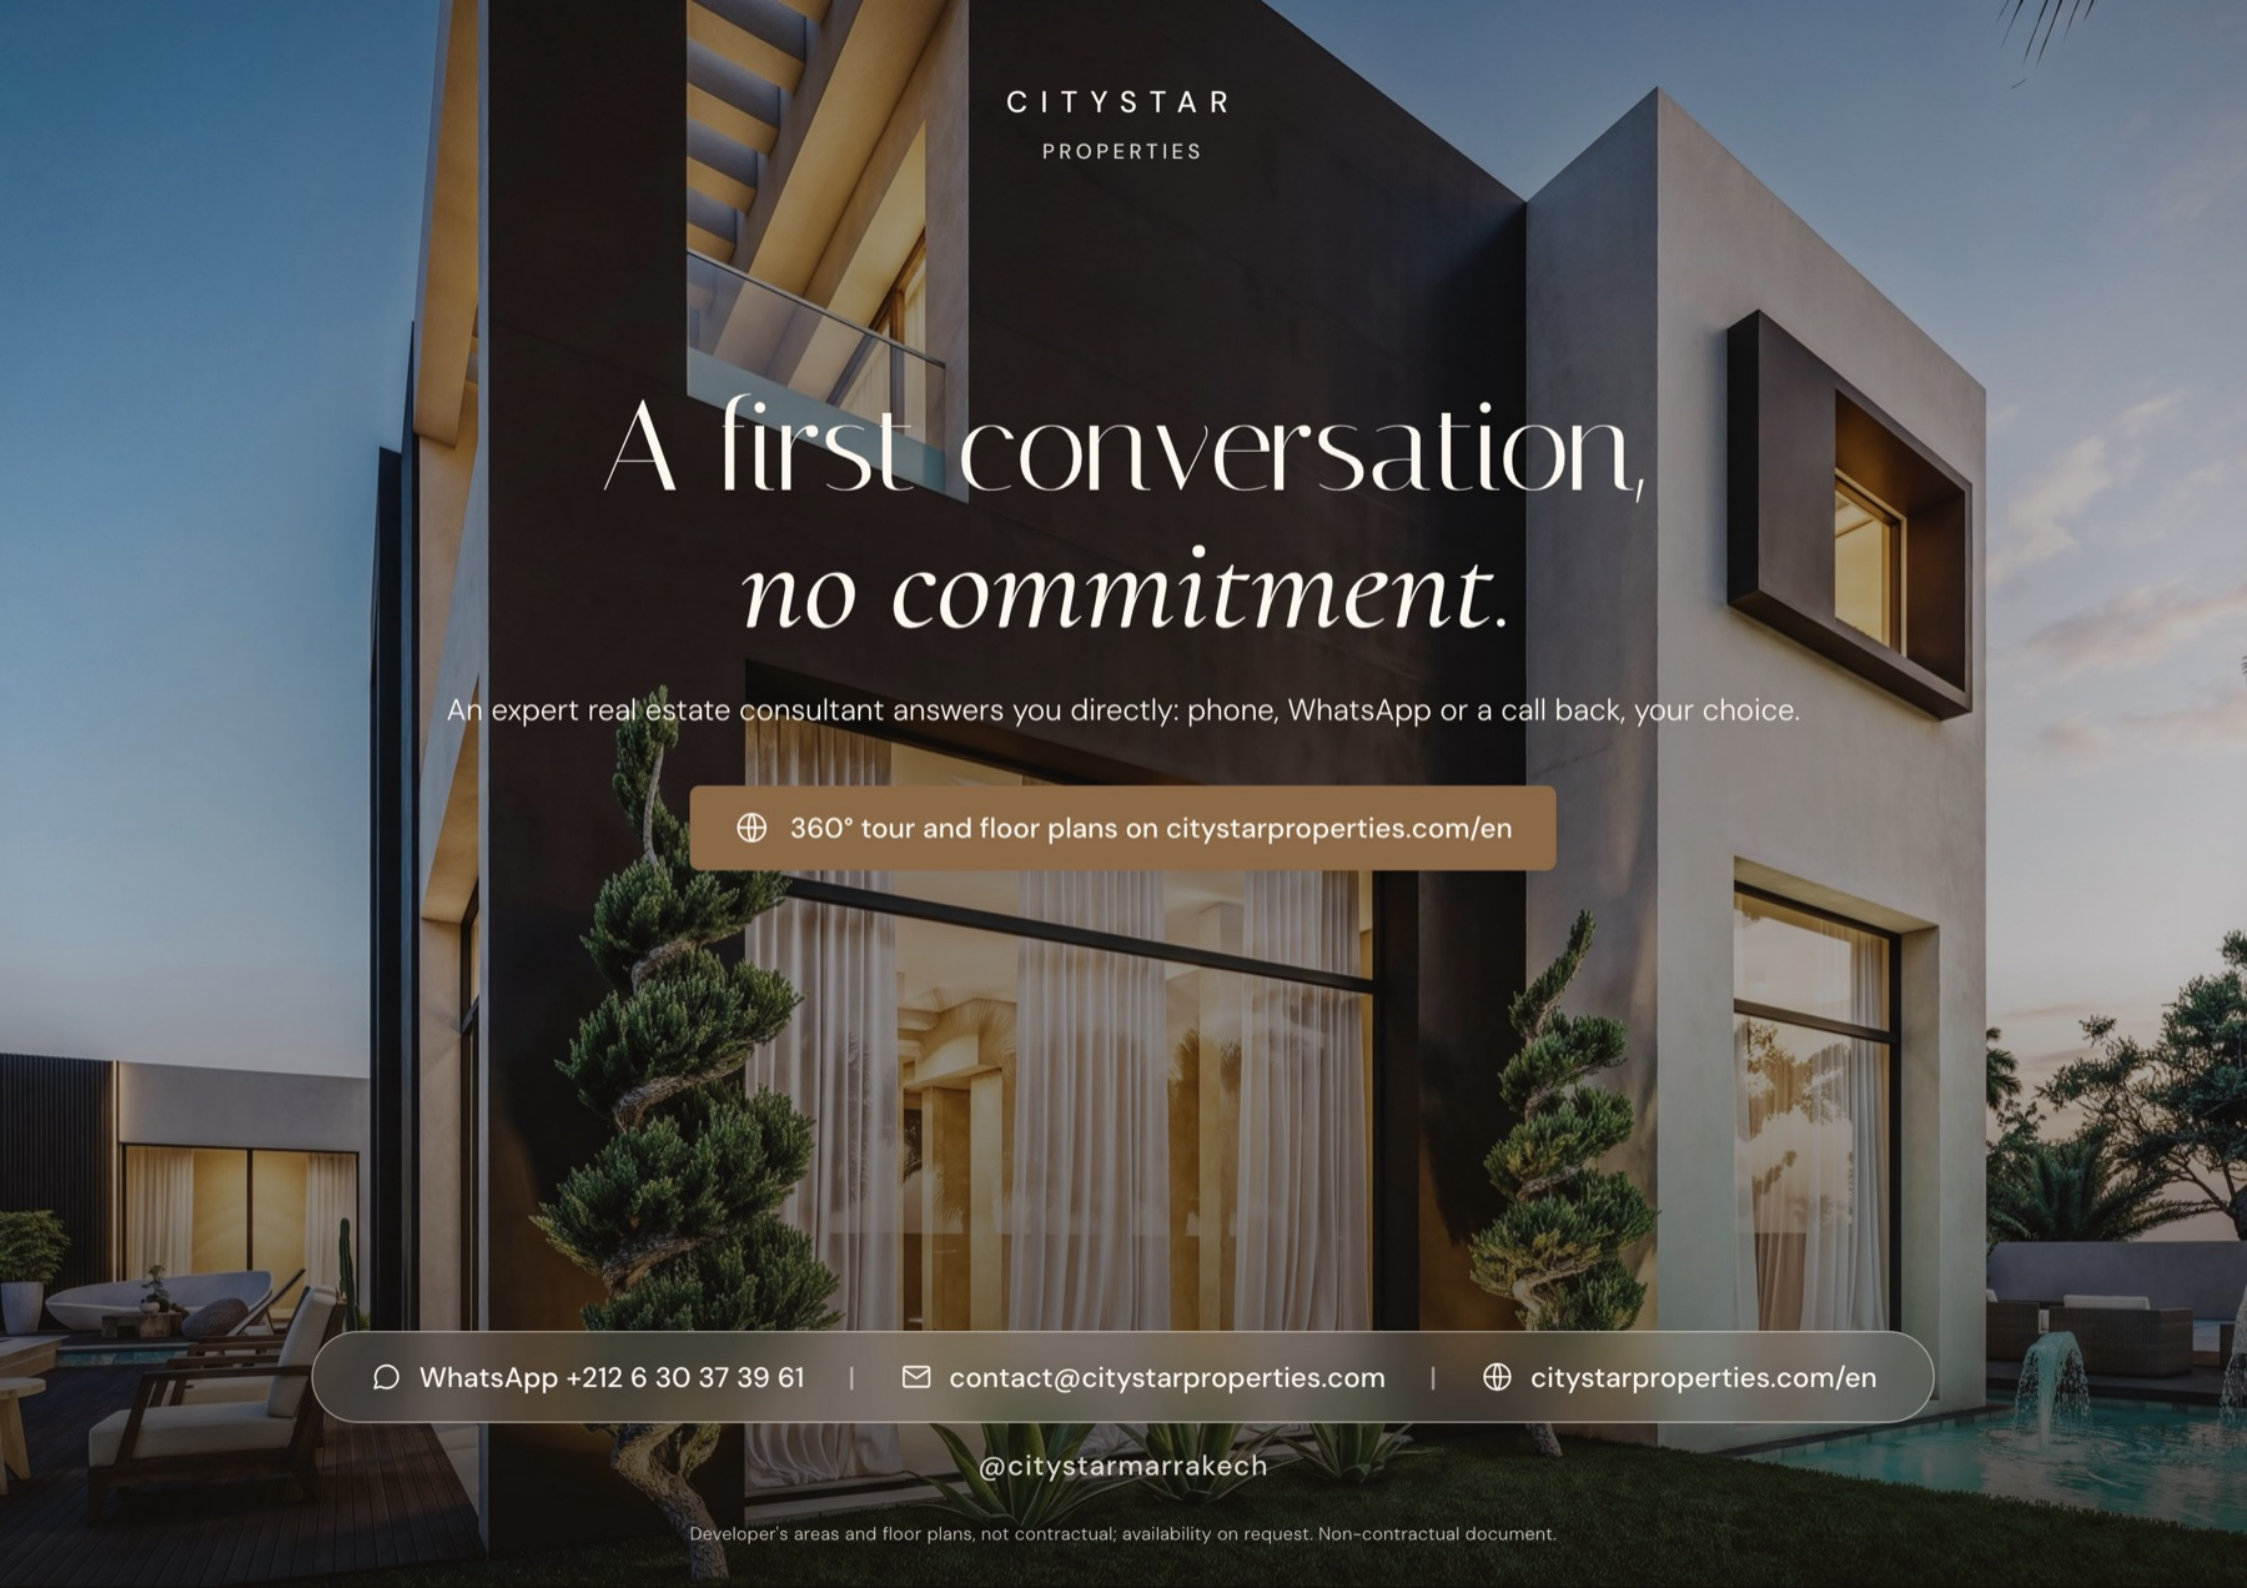

03 **Reservation at the notary**
You reserve directly at the notary, and every payment goes through the notary's office.

04 **Financing**
Cash or with a mortgage: your consultant guides you through the steps with your bank.

05 **Following the construction**
From your owner area: progress, site photos, payments and documents.

06 **Handing over the keys**
Delivery planned for August 2027. Your villa is handed over to you, turnkey.

Construction is equity-funded, according to the developer. The developer accepts purchases financed by a bank mortgage.
